

# Eric Musyoka

SOFTWARE DEVELOPER | IT GRADUATE | NETWORKING & TECHNOLOGY  
+254 710 911 645 • ericmusyoka17@gmail.com  
portfolio.stackcrafts.com • emxluz.xyz

## PROFILE

Passionate and dedicated Software Engineering graduate with a strong foundation in IT systems, software development, technical support, and troubleshooting. Seeking a job or internship opportunity to deepen practical experience in networking, software development, IT support, and emerging technologies. Motivated to learn continuously, contribute to technical teams, and grow as a technology professional.

## TECHNICAL SKILLS

### PROGRAMMING

Python • JavaScript

### WEB DEVELOPMENT

HTML • CSS • React • Node.js • Express

### DATABASES

MySQL

### NETWORKING & IT

Network troubleshooting • System support •  
Hardware/software troubleshooting

### TOOLS & PLATFORMS

Git • GitHub • Linux • VS Code • Netlify

## CERTIFICATIONS

- Git & GitHub Foundations
- Python for Beginners
- JavaScript Crash Course — FreeCodeCamp
- Fundamentals of Databases

documents.stackcrafts.com

## EXPERIENCE

### Freelance Software Developer / IT Support

2025 – Present

- Provided technical support and troubleshooting for web applications and scripts.
- Documented project issues, solutions, and workflows for clients and peers.
- Collaborated on GitHub projects in team-based environments and applied agile practices.
- Tutored peers in Python and JavaScript.

## EDUCATION

### Diploma in Software Engineering

Kenya Institute of Software Engineering • 2025 – 2026 • Graduated

Coursework: Software development, web engineering, database systems, and project management.

### KCSE

Ndolo Boys High School • 2020 – 2024

Mathematics, Computer Studies

## PROJECTS & CAREER HIGHLIGHTS

|                                                  |                                                                                            |
|--------------------------------------------------|--------------------------------------------------------------------------------------------|
| <b>Portfolio Website (2025)</b>                  | Built and deployed a responsive portfolio website using React and Vite, hosted on Netlify. |
| <b>Full-Stack Blog Platform</b>                  | Developed a Node.js and Express application with authentication and CRUD functionality.    |
| <b>AI Chatbot (2024)</b>                         | Created a Python-based chatbot using NLP libraries to handle basic user queries.           |
| <b>School Management System</b>                  | Designed a prototype using MySQL to manage student and staff records.                      |
| <b>Community Health Tracker Hackathon (2025)</b> | Collaborated on backend development and user authentication.                               |

## TECH PORTFOLIO

|                     |                                        |
